

PDLC Patchcord

Description:

All industry standard fiber optic connectivity together with customized connectors are available for terminating to all kinds of patchcord and/or pigtail at different lengths. With great in-house manufacturing of fiber optic connector, cable and cable assembly, it provides the advantages of flexibility, superior quality and quick turn-around.

Picture:

Features:

- Safe and reliable connection.
- Waterproof, dustproof.
- Robust minicord-breakout.

Applications:

- Fiber optic line between Remote-Radio head and base station, FTTA and FTTH.

Specifications:

Parameter	Unit	Index
Fiber Type	/	G652B, G652D, G655, G657A1, G657A2, A1a, A1b
Insertion Loss	dB	Max \leq 0.7
Repeatability	dB	\leq 0.1
Interchangeability	dB	\leq 0.2
Connection Durability	times	\geq 500
Operating Temperature	$^{\circ}$ C	-25~+70
